Company Profile

Satbir Industries (REGD.) an IATF 16949 Certified company which is engaged in manufacturing of hot forged components. We are one of the largest manufacturers of hot forged nuts in India. State of the Art manufacturing facilities are managed by highly skilled work force and dedicated team of quality professionals to deliver the best quality products at economical prices to our customers on global platform.

MISSION & VISION

Our Mission

Our mission is to provide our clients with high-quality fasteners & all types of forging components in various kinds of metals at affordable prices. Our sales and development are done through a market-focused and process-oriented approach. We have recruited the best possible employees, partners, and machinery in the hopes of achieving what we strive for.

Our Vision

To cater each and every demand of the customer and give them full satisfaction because we believe in the fact that "THE CUSTOMER ALWAYS COMES FIRST". To be a leading manufacturer and supplier in providing material specific solutions with our fasteners.

We have selected a team of knowledgeable & experienced engineers, production staff and sales representatives. With the assistance of their collective efforts, we are capable of accommodating client's special need as per their exact specifications. Our professionals give their best in order to offer our valuable clients high quality products as per their detailed specifications. These professionals also inspect the entire range on different parameters to eradicate all the flaws from the assortment.

OUR TEAM

Manufacturing Capacity and Future Plan

We are currently manufacturing 7 lakh pcs /month with monthly consumption of 150 ton Raw Material using a team of 150 skilled workers and professionals. Our annual turnover is approx Rs. 20 Crore which we are expecting to increase to Rs.100 crore in next 3-4 years by increasing the production of current products and adding new products as well.

For Our Future Expansion, We have already procured 1.25 acre land and construction has already started.
